

## **CICRA Information Note**

**11 May 2015**

### **Interference with Freeview television signal**

If you have started to experience interference with your Freeview television signal in the last few days then the interference may be as a result of the 4G telecoms mobile networks that JT, Sure and Airtel are installing across the Channel Islands.

The operators have committed to resolve all such issues, for which tried and tested remedies exist. If you think you are affected please phone the operators for further assistance.

- JT 01534 882882
- Sure 01481 700700
- Airtel 01534 520400

A customer information leaflet prepared by the three operators can be found on CICRA's website [www.cicra.je](http://www.cicra.je).
