11 - 1 - 08

Dear Sir ,

Thankyou for the reply to our letter of 11- 1 - 07 .

We are now writing to oppose the extension of the Airtel deadline ,we think they have already had long enough till Dec 2007 to start up , clearly they have missed the boat and should be thrown out.

As you admit you have not been able to provide us with the output Power in Watts of the existing Wave, and Cable & Wireless Microwave Transmitters which are installed on Radar Tower at Airport ; La Villiaze Rd , St Andrews , close to houses ,

Please provide us with a letter that these masts are 100 % safe , and prove to us you have insurance to cover us from any health risks .

If you are unable to provide the above , please let us know and we will ask fisherman Trott to give you, and the gang from Airtel a ticket for the next boat back to the U . K.

Yours faithfully ,

K . Wheeler.
