Dear Sir

International Energy Group – Electricity Generation Licence

I am in receipt of a copy of your notice of a proposed decision to grant an electricity generation licence to the International Energy Group (IEG) and a copy of the letter from Guernsey Electricity to you on the matter.

I note that, in their letter to you, Guernsey Electricity has raised a number of important questions and issues that have arisen in relation to the proposal that it has not been possible to fully consider in the very limited time that CICRA has allowed to provide a response.

I would urge CICRA to ensure that these issues and questions are fully and properly considered in conjunction with the relevant stakeholders prior to it determining the licence application from IEG.

Yours sincerely

Deputy Charles Parkinson
President
States' Trading Supervisory Board
