La Plaiderie Chambers, La Plaiderie, St Peter Port,

Guernsey, GY1 1WG

T : +44 (0) 1481 711120

E : info@gcra.gg

1. Information note

- 1.1 Every year a Telecommunications Statistics and Market Report (Report) is published. The Report is a joint project between the Guernsey Competition and Regulatory Authority (GCRA) and Jersey Competition Regulatory Authority (JCRA), which have a service level agreement with Statistics Jersey to produce the pan-Channel Islands Report.
- 1.2 The publishing of market information provides the opportunity to demonstrate the value the telecoms sector has generated in the Channel Islands and allows stakeholders to plan and prioritise activities that ensure continued effective competition for the benefit of consumers.
- 1.3 An overview of the timetable for the production of the 2021 Report is provided below which builds on lessons learned from the previous reports.

Indicative date	Milestone
10 January 2022	Issuing of 2021 data request to Licensees by Statistics Jersey
28 February 2022	Deadline for receipt of tranche 1 information from Licensees (not reliant on audited accounts)
29 April 2022	Deadline for receipt of tranche 2 of information from Licensees (reliant on audited accounts)
18 July 2022	Publication of 2021 report, associated media releases and key data uploaded to opendata.gov.je portal

- 1.4 The 2021 Report will mark the first time that key time series data, collated in the Report, will be uploaded to the opendata.gov.je portal. This will be industry level data and will help improve how stakeholders and the wider public interact with the key information that is published.
- 1.5 If there are any queries on the plans for the 2021 Report or feedback on previous year's Reports, please e-mail your views by 17.00, 18 December 2021 by email to info@jcra.je and info@gcra.gg.
