GCRA Consultation on Proposals to Ban the Leasing of Global Titles (T1655G)

We write in response to the GCRA's consultation on the proposals to ban global titles (GTs).

As previously advised, JT (Guernsey) Limited does not lease GTs using its Guernsey allocated number ranges.

JT has already engaged in the Ofcom consultation on "Global Titles and Mobile Network Security" and our response is attached. JT's response together with other responses to the consultation can be found on Ofcom's website¹. As stated in our response to Ofcom's consultation we believe Ofcom should enforce the GSMA Global Title Leasing Code of Conduct and could do this by creating clear guidance.

We recommend that the GCRA await Ofcom's statement, which is due the spring and align with Ofcom's approach as the number range provider.

For and on behalf of

JT (Guernsey) Limited

¹ [Consultation: Global Titles and Mobile Network Security - Ofcom](#)
